

Ghazal Mohammad

Flutter Developer | Software Engineer

Damascus, Syria • 0937879247 • mohammadghazal423@gmail.com • [Portfolio](#) • [GitHub](#) • [LinkedIn](#)

PROFESSIONAL SUMMARY

Flutter Developer and Information Technology Engineering student with hands-on experience building real mobile applications and system-oriented projects. Recognized as a top intern at Widespheres for dedication and continuous improvement mindset. Passionate about clean architecture, animations, and user-centered design. Seeking internship or junior Flutter opportunities.

TECHNICAL SKILLS

Languages & Frameworks: Flutter, Dart, Java, C++, HTML, CSS (Basics)

State Management: Bloc, GetX

Tools & Practices: REST API Integration, Git & GitHub, UI Development & Animations, Clean Architecture

EXPERIENCE

Flutter Mobile Intern — Widespheres

Damascus, Syria | 2025 | Certification Pending

- Developed an educational mobile project as part of the Mobile track internship program
- Recognized as 'Top Intern of the Week' for exceptional dedication and high-quality work
- Demonstrated continuous improvement mindset and strong collaborative work ethic

Flutter Developer — Freelance

01/2024 – 08/2024

- Developed complete mobile applications using Flutter from concept to deployment
- Implemented UI designs and integrated REST APIs for dynamic data handling
- Delivered full-featured solutions independently with minimal supervision

PROJECTS

Civil Status Automation System — Syria *(In Progress)*

Technologies: Flutter, Dart, REST APIs, Clean Architecture

- Contributing as a developer in a team project aiming to digitize civil status processes in Syria
- Working on modular architecture and scalable UI components
- Actively collaborating and iterating on features as part of an ongoing development cycle

Pharmacy Management & Medication Recommendation App *(In Progress)*

Technologies: Flutter, Dart, Bloc, GetX, REST APIs | Source: [GitHub](#)

- Built role-based flows for users and pharmacy administrators
- Integrated REST APIs for dynamic inventory and medication data
- Implemented Bloc and GetX state management for performance and clean architecture
- Focused on intuitive UI and smooth performance across device sizes

Task Trove – Job Platform Mobile App

Technologies: Flutter, Dart, GetX | Demo available upon request

- Implemented authentication, profile screens, and job listing flows
- Built admin interfaces and added animations to improve user experience

Advanced Banking System (University Project)

Technologies: Java, OOP, Data Structures | Source: [GitHub](#)

- Designed modular system architecture using OOP principles
- Implemented account management, transactions, and data validation with error handling

EDUCATION

B.Sc. Information Technology Engineering

Damascus University | 2021 – 2026 (Expected)

LANGUAGES

Arabic: Native **English:** Professional Working Proficiency
